Tangerang Kota, Banten, 15151

I am an Informatics student at Universitas Multimedia Nusantara, passionate about web and software development. Skilled in PHP, CSS, HTML, LARAVEL, Java, Python, and SQL. Looking for an internship opportunity to develop skills, gain real-world experience, and contribute to innovative projects.

EDUCATION

Universitas Multimedia Nusantara

2023 - Present

Currently in 6th semester of Informatics program | GPA: 3.40 / 4.00

- Proficient in programming using PHP, Java, and Python
- Experienced in database management with MySQL and object-oriented programming (OOP)
- Applied software development methodologies, data analysis techniques, and problem-solving skills through academic and personal projects
- Developed strong teamwork and collaboration skills through group assignments and project-based learning

SMA YADIKA 5 Joglo Jakarta Barat

2020 - 2023

- Focused on mathematics, physics, chemistry, and biology
- Developed strong analytical thinking, logical reasoning, and problem-solving skills
- Built a solid foundation in scientific methods and data analysis
- Strengthened discipline, teamwork, and time management through academic activities

EXPERIENCE

Web Developer | Website Gereja RPBI Sion Karawang (LARAVEL)

November 2024 – January 2025

- Developed a web-based information system for church activities using PHP with Laravel framework
- Designed and implemented website features including worship schedules, event information, gallery, registration system, FAQ, and contact pages
- Applied MVC architecture and object-oriented programming principles in system development
- Managed website data and content to improve communication between church administrators and congregation
- Collaborated in a team to analyze requirements, design system flow, and test application functionality
- Created a centralized digital platform to reduce miscommunication and improve information accessibility

Game Developer – Academic Project (UMN) (C#)

September 2025 – December 2025

Whisper Of The Forest

- Developed gameplay mechanics, AI systems, and design
- Implemented programming for menus and game chapters
- Designed game rules, storyline, and documentation
- Performed testing and debugging for gameplay stability
- Published and distributed the game via itch.io as a playable project <https://ganesar-zena.itch.io/whisper-of-the-forest>

Web Developer (Freelance / Project-Based) (PHP)

December 2024

E-Commerce Shopee Affiliate Website – Chatbot System | Vitamin Ultigar

- Developed an e-commerce affiliate website using PHP and MySQL
- Designed and implemented a chatbot-based consultation system for product recommendations
- Built a keyword-based response system to suggest vitamin products automatically
- Implemented a user dashboard to manage customer chat interactions and consultation history
- Developed a secure admin dashboard with full CRUD functionality for chatbot keywords, responses, and product data
- Implemented authentication and role-based access control for admin and user
- Designed a real-time chat flow with automated responses and manual admin takeover

Organization

Starlight 2025 – Universitas Multimedia Nusantara 2025 | Ensurer / Security Division Member

2024 - 2025

- Ensured safety and order during event activities
- Coordinated with team members to manage crowd control and event security
- Assisted in maintaining smooth event operations throughout the program

Serah Tahunan UKM 2025 – Universitas Multimedia Nusantara 2025 | Accommodation Division Member

- Managed accommodation and logistical needs for event participants and committees
- Coordinated room allocation and facility readiness
- Supported overall event execution through effective coordination and communication

CERTIFICATION

- Earned Introduction to Python and Python Intermediate certificates from SoloLearn, demonstrating theoretical and practical proficiency in Python.
- Enrolled in HCIA-AI V3.5 Course – Huawei Certified ICT Associate (Offline: 2025-09-30) focusing on Artificial Intelligence,
- Enrolled in HCIA-openGauss V1.0 Course – Huawei Certified ICT Associate specializing in database management systems.

SKILLS

- Hard Skills: Programming (PHP, CSS, HTML, Laravel, Java, Python.), Database Management (MySQL), Software Development & OOP, Data Analysis (Python), WordPress Website Development, Digital Marketing (Content Creation, Social Media Management, SEO Basics), Graphic & Video Editing (Canva, CapCut).
- Soft Skills: Problem-Solving, Analytical Thinking, Teamwork, Communication, Time Management, Creativity, Adaptability.

INTEREST

- UI/UX Design & Web Development – Enjoy designing intuitive and visually engaging websites and applications, with an emphasis on usability and responsive layouts.
- Software Engineering & Data Analysis – Interested in developing efficient software systems and leveraging data analysis to support informed decision-making.
- AI & Machine Learning – Keen to learn and apply modern technologies to address real-world challenges and enhance digital solutions.
